

Concerning the CPR project in St. Louis Park on Texas Avenue (file titled, "Plan Set 20081100.pdf" posted in CPAM's eLibrary):

We discovered an error in the plans after we started the project.

The error was in the Partial Depth Repair (Type SA-BA) item.

The plan listed lineal feet (LF) as the unit of measure. It should have been indicated as square feet (SF) according to the specification.

Jim Olson, P.E.
Public Works Department
City of St. Louis Park
